45 mins - Counseling and divination journey work aimed at moving past limiting beliefs.

90 mins - Counseling and divination with extraction and soul retrieval, aimed at healing past trauma and unresolved life issues.

- Sarah will work in the same interactive way, using her unique counseling techniques, classic extraction and soul retrieval with the intention of compassionately resolving problems that may have appeared to be endlessly pervasive.

PETER CLARK - PAST LIFE DIVINATION AND HEALING

Past life information, curse unraveling, healing

45 mins - Past life divination or curse unraveling.

- Peter will undertake a divinational journey to investigate past lives and their connection to and/or impact on one's current life. Client may ask questions that will prompt a follow up journey for clarification, OR
- Peter will do a curse unraveling if the client comes prepared with the description of an event that appears to have resulted in the activation of a curse.

90 mins - Healing session with extraction and soul retrieval centered around past life.

- When some problem or pattern keeps recurring, the solution may lie in some unresolved past life trauma, event, or curse. Peter will use a divinational journey to inquire about these connections, then carry out relevant healing work for the client including extraction, soul retrieval, and possible curse unraveling.
