

Shaman's Flame and Sacred Circles present:  
**Star Seed Evolution**  
*...Exploring the Roots of Our  
Ancestral Star Connections*

**with Sarah Finlay and Peter Clark**

*In this day and evening workshop, we will investigate the possible celestial origins of our genetic heritage from a diversity of exciting perspectives!*

*Saturday, May 19 at Sacred Circles, St James 11.00am – 7.00pm Fee: \$150*

The goal of this work is to reach new understandings of our inner state, as well as the current condition of the world, our potential future, and the possible healing of past disempowerment. We will approach this from the viewpoint that forces, from beyond our planet's boundaries, may have influenced all that we are and much that happens here, including our evolution. Using sacred symbols, activated sound healing, and several other techniques, we will work to awaken dormant abilities to help in the development of a healthier evolutionary consciousness.

Selected Topics:

- Meeting compassionate helping spirits to assist in the understanding of our star connections.
- Healing of possible fear based thinking connected to these mysteries.
- Exploring dream communications or extraordinary experiences with celestial sources.
- Working with quartz crystals as non-ordinary communication and activation tools.
- Active co-creation of star seed evolution in an evening ceremony.

We will be moving forward as empowered individuals with the goal of addressing many of the imbalances in today's world.
